

Index crime statistics for 2008 and 2009

WIBRS (Wisconsin Incident Based Reporting System) data cannot be compared to UCR (Uniform Crime Report) data.
 UCR data only counts the highest-level crime as an incident and WIBRS counts all lesser offenses in an incident as separate incidents.
 Milwaukee records and reports all data in IBR and the WI Office of Justice Assistance converts this IBR data back into UCR values as seen below.
 Due to the nature of Incident Based Reporting, these values are subject to change for up to two years from the Reported Date.
